LET'S GET TO KNOW FRONTIER LAWN AND LANDSCAPE

Frontier Lawn & Landscape was founded in 1991, and operates out of Havre, MT, with Ron Konesky, Steve Chvilicek and Tim (Gunnar) Vandermars mowing lawns while holding other jobs to help support their families. In March of 1991, they officially incorporated and became Frontier Lawn & Landscaping, Inc. Originally stationed out of Steve's garage, they have worked out of several locations before settling into their current building on the west end of Havre. While Tim decided to go his own way in 1993, Ron and Steve continued to expand their services to offer a 5-step lawn spray program, residential and commercial landscaping, tree nursery, hydroseeding, sprinkler system installation, snow removal, concrete work and other services. Always looking for ways to expand their

services to the community, Frontier became the first Traeger pellet barbecue grill dealer in the area. Currently, they also sell and service Arctic Spa Hot Tubs and All-Weather Pools, Blaze King wood stove and Iron Strike Pellet Stoves. The business and its owners have been strong supporters of the local community by investing time and resources in youth sports, Special Olympics Great Northern Area Games, Hill County 4-H (Ron & Steve have both served as Hog & Beef superintendents), the Legends for Lights Pheasant Hunt for MSU-Northern and the Fresno Chapter Walleyes Unlimited. Frontier has always been a family-involved operation and recently Jake & Kyle Konesky (2 of Ron's 3 sons) assumed a larger role in the business, when Ron bought his last partner out in 2017. Frontier continues to serve Havre and the surrounding areas with all of their various services in addition to their tremendous support of community events.
